Quality Checks at every stage

Inspection isn't a final gate at Maystil — it happens at every step after production starts.

- In-process checks during knitting and linking
- Wash and finish verified against yarn-maker specifications
- Pre-shipment inspection on every order
- Traceability from yarn to finished garment

SUSTAINABILITY

Reducing our footprint matters here as much as the product does. We keep building on our certifications with more organic and recycled fibres as standard. As a Fair Wear Foundation member, fair wages, safe working conditions and workers' rights across our supply chain are independently verified through social compliance audits.
